NINTENDO GAMECUBE PRODUCT INFORMATION

NINTENDO GAMECUBE CONTROLLER

Nintendo is known for innovation when it comes to controllers, and for good reason. Beyond the classic Control Pad and Control Stick, the Nintendo GameCube controller features a built-in rumble feature, dual-function analog L and R buttons, and a new analog stick designed for camera control. Striking an ideal balance between comfort and utility, the Nintendo GameCube controller is the perfect tool to master the new classics of the next generation.

NINTENDO GAMECUBE WAVEBIRD WIRELESS CONTROLLER

Break free of the wires! Plug in the receiver and experience the WaveBird—with the same control features of the regular controller, but with wireless game play up to 20 feet. Any combination of up to four WaveBird wireless controllers or regular controllers can be connected to the Nintendo GameCube.

To extend battery life, the WaveBird does not include a built-in rumble feature.

NINTENDO GAMECUBE MEMORY CARD (251 AND 1019)

The Memory Card is a portable data storage device designed specifically for the Nintendo GameCube. Most games require the Memory Card for saving game settings and progress or recording statistics and swapping characters.

NINTENDO GAMECUBE COMPONENT VIDEO CABLE

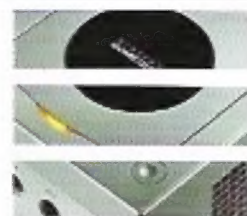

The Component Video Cable supports component signal input with specifically designed games, for the latest video technology including progressive scan and high definition televisions.

Available only through Nintendo, call 1-800-255-3700 or visit www.nintendo.com to order.

NINTENDO GAMECUBE RF SWITCH/RF MODULATOR

For connecting the Nintendo GameCube to a TV or VCR without audio/video connections. The Nintendo 64 RF Switch is also compatible with Nintendo GameCube.

NINTENDO GAMECUBE GAME BOY ADVANCE CABLE

This cable, when used with specially designed games, allows you to connect the Game Boy Advance to the Nintendo GameCube. The features available will change depending on the game—from exchanging data or unlocking new game levels, to allowing the Game Boy Advance to be used as a supplemental game screen or input device.

NINTENDO GAMECUBE BROADBAND ADAPTER

The Broadband Adapter for the Nintendo GameCube allows you to connect to a broadband source for playing online-capable games. This adapter can only be used with specially designed Nintendo GameCube games that include online game features.

NINTENDO GAMECUBE GAME BOY PLAYER

The Game Boy Player accessory allows you to play your favorite Game Boy games on your TV through the Nintendo GameCube—using a regular Nintendo GameCube Controller or a Game Boy Advance as a controller. The Game Boy Player includes features for hot swapping Game Paks, selecting different on-screen borders, choosing game image sizes, and a built-in timer.

Look for the Official Nintendo Seal to make sure you are using only licensed or Nintendo manufactured accessories for the best game play experience!

Look for these icons on the back of Nintendo GameCube games to see which accessories can be used with the game.

This game supports simultaneous game play with one, two, three or four players and controllers.

The Entertainment Software Rating Board assigns a rating to a game so consumers are able to make informed game purchasing decisions!

The End-Cap of the packaging indicates these games are compatible only with the Nintendo GameCube system!

Games that feature this icon can play in Dolby Pro Logic II Surround Sound.

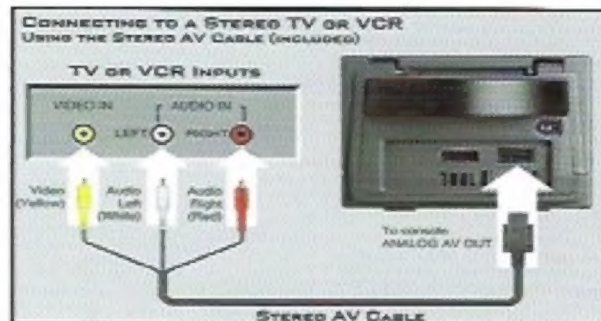

Always look for this seal to make sure the product you buy is licensed or manufactured by Nintendo.

NINTENDO GAMECUBE Stereo AV Hook Up:

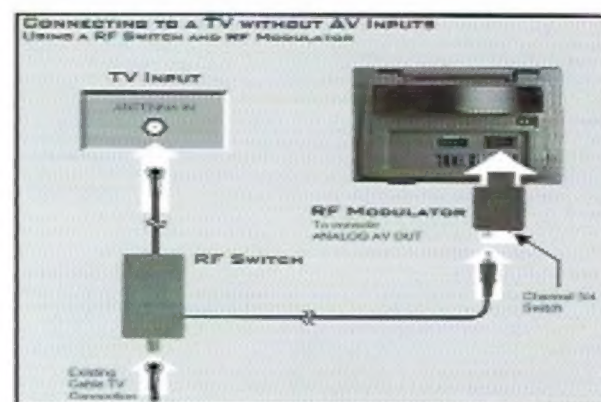

For hook up. The NINTENDO GameCube comes with Stereo AV cables which plug in to most TV's and VCR's. To the right is a diagram of a standard Nintendo GameCube AV to TV or VCR Hookup:

Quick Tip! If the customer's system is connected using AV cables and they cannot see the game on their screen, it is likely all they need to find is the input select on their TV or VCR.

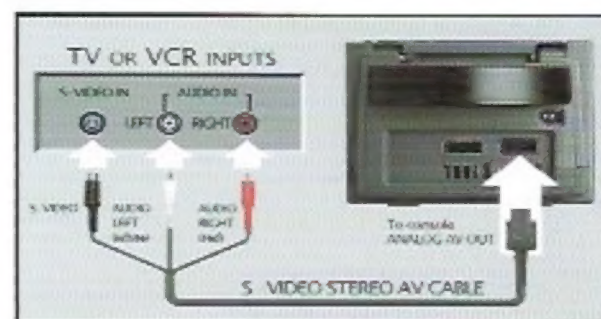

NINTENDO GAMECUBE RF Hook Up:

If the customer only has a cable post connection on their TV: The consumer needs to purchase the official Nintendo RF Switch/Modulator set bearing the Nintendo Seal of Quality. The RF Switch/Modulator set has the wires that can plug into any cable ready TV. To the right is the Nintendo GameCube RF to TV Hookup:

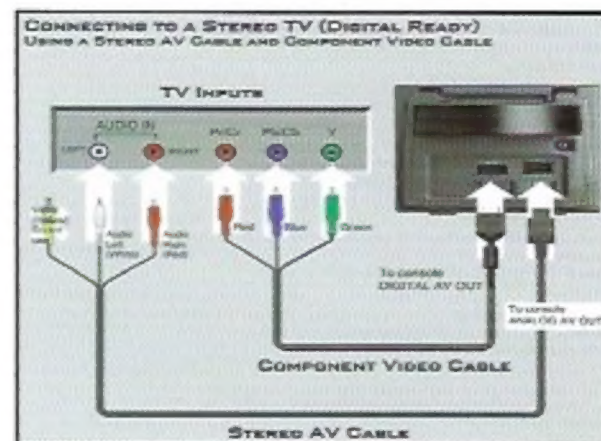

GCN S-Video Hook Up:

Important Note - The S-Video Cables will not connect to a standard TV. Your TV must have S-Video inputs in order to use the S-Video Cable.

GCN Component Video Hook Up:

Important Note - The Component Video Cables will not connect to a standard TV. Your TV must have Component Video inputs in order to use the Component Video cable.

Link Game Boy Advance systems to a Nintendo GameCube for incredible game play that's unique to Nintendo. For example, on a single TV, compete and cooperate with friends on the Hyrulian overworld in *The Legend of Zelda: Four Swords* for Nintendo GameCube...but when the action gets crazy, duck into the underground world on your Game Boy Advance!

Developers are finding all kinds of cool ways to connect the Nintendo GameCube and the Game Boy Advance. Whether you're uploading your stable of Pokémon into *Pokémon Colosseum* or expanding your football strategy in EA's *Madden 2004*, you'll soon find the Game Boy Advance to be an indispensable gaming tool!

GAME BOY[®] PLAYER

**Play Game Boy games
on your TV using a
Nintendo GameCube!**

Launched in June 2003, the Nintendo GameCube Game Boy Player allows you to play more than 1,000 games designed for the original Game Boy, Game Boy Color and Game Boy Advance on your television through Nintendo GameCube!

The Game Boy Player is a one-inch platform which connects to the bottom of the Nintendo GameCube, matching the Nintendo GameCube footprint and allowing players to use either their console controller or Game Boy Advance to control the action.

Look for the Official Nintendo Seal to make sure you are using only licensed or Nintendo manufactured accessories for the best game play experience!

GAME BOY[®] PLAYER

The Game Boy Player accessory allows you to play your favorite Game Boy games on your TV through the Nintendo GameCube—using a regular Nintendo GameCube controller or a Game Boy Advance as a controller. The Game Boy Player includes features for hot swapping Game Paks, selecting different on-screen borders, choosing game image sizes, and a built-in timer.

- Control game play with a Nintendo GameCube Controller or plug in the Nintendo GameCube Game Boy Advance cable* and use a Game Boy Advance system as a controller.

- Play more than 1,000 games designed for the original Game Boy, Game Boy Color and Game Boy Advance handheld game systems.

- Select from 20 different frame designs that border the game image on the TV screen.

- The Game Boy Player matches the footprint of the Nintendo GameCube and quickly connects to the bottom, adding only one inch to the height. You can easily switch from playing Game Boy games to Nintendo GameCube games.

* sold separately

Look for the Official Nintendo Seal to make sure you are using only licensed or Nintendo manufactured accessories for the best game play experience!

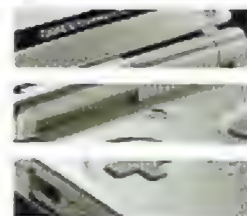

GAME BOY ADVANCE PRODUCT INFORMATION

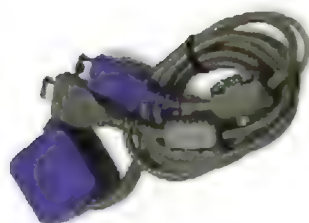

NINTENDO GAMECUBE GAME BOY ADVANCE CABLE

This cable, when used with specially designed games, allows you to connect the Game Boy Advance to the Nintendo GameCube. The features available will change depending on the game—from exchanging data or unlocking new game levels, to allowing the Game Boy Advance to be used as a supplemental game screen or input device.

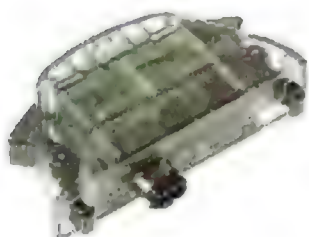

GAME BOY ADVANCE AC ADAPTER SET

The Game Boy Advance AC Adapter set contains an AC Adapter and DC Power Module—everything you need for non-stop power for your Game Boy Advance.

GAME BOY ADVANCE GAME LINK CABLE

This cable allows you to trade data or play multiplayer games with other Game Boy Advance systems.

GAME BOY ADVANCE WIRELESS ADAPTER

The Game Boy Advance Wireless Adapter allows you to play wireless compatible multiplayer games within a range of about 10 feet, without the use of cables (one adapter is needed for each player). The wireless adapter will only work with Game Boy Advance and Game Boy Advance SP portable video game systems and Game Boy Advance Game Paks that have been designed to use the wireless adapter. This adapter will also work with Nintendo GameCube™ Game Boy Player.

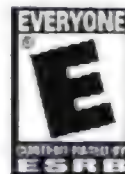

Look for the Official Nintendo Seal to make sure you are using only licensed or Nintendo manufactured accessories for the best game play experience!

Use the icons on game boxes to determine which accessories Game Boy can use.

The "GBA Link Cable" icon appears on games that can use the Game Boy Advance Game Link Cable, which allows up to four players to connect their Game Boy Advance and Game Boy Advance SP systems to enjoy multiplayer fun.

The Entertainment Software Rating Board assigns a rating to a game so consumers are able to make informed game purchasing decisions!

In specially-designed Nintendo GameCube and Game Boy Advance games, the Game Boy Advance can be connected to the Nintendo GameCube to exchange data or provide other special functions, when using the Nintendo GameCube Game Boy Advance Cable.

The symbol that assures the best! The Official Nintendo Seal indicates the product is licensed or manufactured by Nintendo.

As many as five friends can play specially designed GBA games without cables! Both Single and Multi-Pak options are available. Wireless adapters work with any combination of the following systems: the Game Boy Advance, the Game Boy Advance SP and the Game Boy Player.

The End-Cap of the packaging indicates these games are compatible only with the Game Boy Advance system!

See back panel for details.

The "Link it Up" symbol appears on games that allow multiple players to link up and play using a single Game Pak and one or more Game Boy Advance Link Cables.

Games with the "Link It Up!" icon can be used for multiplayer fun with the use of one game pak! Multiplayer games that require each player to have a game pak will not have this icon. Multiplayer information for these games can be found on the back of the packaging.

In specially designed Nintendo GameCube and Game Boy Advance games, the Game Boy Advance can be connected to the Nintendo GameCube to exchange data or provide other special functions. Only games displaying the icon "Game Boy Advance Compatible" (on the back of the Nintendo GameCube games) or "Nintendo GameCube Compatible" (on the back of the Game Boy Advance games) can be used with this cable.

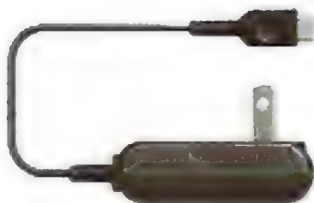

GAME BOY MICRO — WIRELESS ADAPTER

Team up or face off with another Game Boy micro or Game Boy Advance SP using this Wireless Adapter.

The Game Boy micro Wireless Adapter allows up to five people to play wireless compatible multiplayer games without the use of cables. This wireless adapter will only work with Game Boy micro systems and Game Boy Advance Game Paks that have been designed to use the wireless adapter.

Look for the icon on Game Paks that include the wireless adapter feature.

Game Boy micro — AC Adapter

Easy to take on the road. Power up your battery and keep your game alive.

Game Boy micro — Game Link Cable

Get the hook up with other Game Boy micro systems.

Game Boy micro — Game Link Cable Adapter

Used with a Game Boy micro Game Link cable, you can hook up with the classic Game Boy Advance or Game Boy Advance SP.

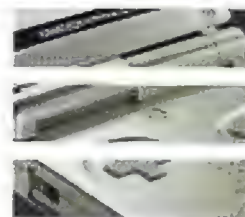

Game Boy micro — Carrying Case/Pouch

This Carrying Case/Pouch is included with your Game Boy micro.

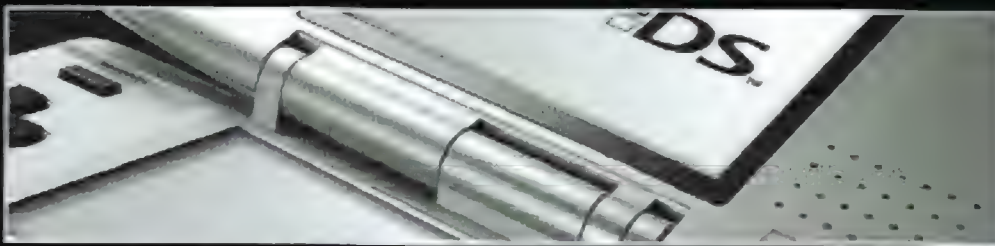

Look for the Official Nintendo Seal to make sure you are using only licensed or Nintendo manufactured accessories for the best game play experience!

NINTENDO DS PRODUCT INFORMATION

Wireless DS
Single-Card
Download Play

The DS Single-Card Download Play icon is featured on games that require only one DS Game Card in order to play multiplayer with other systems. Players without a copy of the DS Game Card can download the game information from the player who has the copy in their system.

Wireless DS
Multi-Card
Play

The DS Multi-Card icon is featured on multiplayer games that require each Nintendo DS to have a copy of the game. For information on setting up a multiplayer game, consult the game's instruction manual.

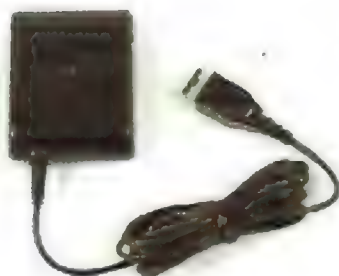

Nintendo Wi-Fi Connection creates a welcome, inviting community where gamers of all kinds can log on wirelessly and begin playing favorite franchise games like Mario Kart DS and Activision's Tony Hawk's American SK8Land, and future titles such as Animal Crossing: Wild World and Metroid Prime Hunters. Visit www.NintendoWiFi.com for more information.

The Entertainment Software Rating Board assigns a rating to a game so consumers are able to make informed game purchasing decisions!

The symbol that assures the best! The Official Nintendo Seal indicates the product is licensed or manufactured by Nintendo.

Nintendo DS - AC Adapter

This AC Adapter is the same as the one included with every Nintendo DS. It is used to recharge the internal rechargeable battery or it can be used as a direct power source. If your AC Adapter is not working properly, we recommend following our troubleshooting steps before deciding upon replacement. This AC Adapter will work with both the Nintendo DS and the Game Boy Advance SP but not with any other Game Boy system.

Nintendo DS - Wrist Strap

This is a replacement for the wrist strap that was originally packaged with the Nintendo DS. The wrist strap has a small plastic pad attached to it that can also be used on the touch screen. This pad is designed for use on games that work better with a sliding type of control.

Nintendo DS - Stylus (sold as set of 3)

Set of three replacement styli for the Nintendo DS handheld video game system. The stylus is designed to fit into the Nintendo DS system and easily snaps inside a convenient storage slot on the back.

NOTE: To avoid damage to the Nintendo DS Touch Screen, only use a Nintendo licensed stylus on the touch screen.

Nintendo DS - Battery

The Battery is a replacement for the one included in every Nintendo DS. If your Battery is not working properly, we recommend following our troubleshooting steps before deciding upon replacement. You'll need a small phillips tip screwdriver to open the battery compartment before you can replace the battery.

Nintendo DS - Battery Cover Kit

The Battery Cover covers the battery compartment on the back of your Nintendo DS. This kit comes with the cover, the screw and small clip which holds the screw to the cover.

ADVISORIES. WARNINGS. DISCLAIMERS

Every video game is rated by the ESRB, an independent board. The rating is posted prominently on all software and is intended to provide parents the ability to make immediate and informed purchasing decisions.

Not all games are for kids! The video game market consists of more adults than kids these days and video game developers are making more and more "Mature" games for this growing adult market.

Please inform concerned buyers to look for the following ratings:

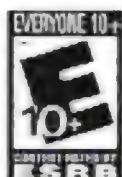

EARLY CHILDHOOD

Content may be suitable for ages 3 and older. Contains no material that parents would find inappropriate.

EVERYONE

Content may be suitable for persons ages 6 and older. May contain minimal violence and some comic mischief or crude language.

EVERYONE 10 AND OLDER

Content may be suitable for ages ten and older. May contain more cartoon, fantasy, or mild violence, mild language, and/or minimal suggestive themes.

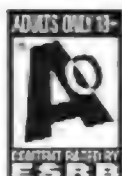

TEEN

Content may be suitable for persons ages 13 and older. May contain violent content, mild or strong language, and/or suggestive themes.

MATURE

Content may be suitable for persons ages 17 and older. May contain mature sexual themes or more intense violence or language.

ADULTS ONLY

Content suitable only for adults. May include graphic depictions of sex and/or violence. Not intended for persons under the age of 18.

RATING PENDING

Product has been submitted to the ESRB and is awaiting final rating.
